

Luxury comfort for every R.V.

Highly efficient heating and continuous domestic hot water appliance in one compact efficient unit.

Fueled by propane or diesel and operated by 12V for off grid applications.

Available with or without an 110 electric element.

The all-in-one design of the Aqua Hot series results in considerable cost and space savings.

Part Number	Fuel	Electric Element	Interior Heat (Max)	Hot Water (gpm)	Size	Weight
AHE-200-P01	Propane	N/A	5 Exchangers 40,000 Btu/h	1.5 gpm tank-less continuous	11.69"T 12.45"W 21.61"L	84 lb (empty) 113 lb (full)
AHE-250-P01	Propane	Yes				
AHE-200-D01	Diesel	N/A				
AHE-250-D01	Diesel	Yes				

Additional Componets	Part Number
Exhaust kit	MSE-200-EXH
Overflow bottle kit	MSE-200-OFB

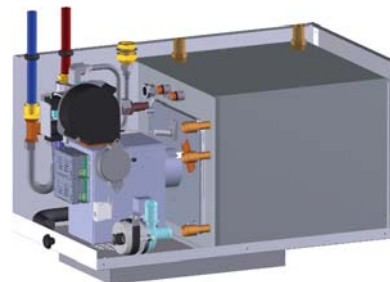

Ultra Compact Hydronic Heating

Single, self-contained unit: Delivers residential-style interior heating using heat exchangers and/or in floor heat with the ability to deliver a luxurious supply of continuous hot water at 110°F-120°F at a rate of 1.5 gallons per minute. It's just like the luxury comfort in a traditional home or high-end diesel motorhome.

Quiet: Low voltage fans provide an almost completely noise free operation.

Fast Installs: Heating, domestic water, and fuel supply/outlet ports are located on top of the tank for easy connection access. Integrated Mounting tray facilitates air intake and exhaust.

Easy Operation: Heat controlled by your thermostat and endless hot water by simply turning on a faucet.
